

SJENICA ZA ODMOR M1:20

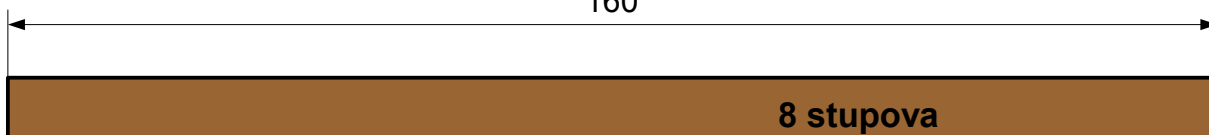

Sjenica za odmor, ukras u dvorišnom prostoru kuće, važan objekt za opuštanje na zraku nakon napornog rada u zatvorenom prostoru. Modelarski uradak mogao bi biti primjer za idejno rješenje te kao ukras za na polici ili radnom stolu. Uz malo dorade mogao bi poslužiti i kao stolna svjetiljka.
